Swami Vivekananda’s rousing and inspiring thoughts shared at the World’s Parliament of Religions in Chicago in 1893 and in several places in India on his return are very relevant and appropriate to us even today. The contemporary Indian youth have their unique challenges in growing up into mature, productive, and responsible citizens and leaders - more so with their roots intact in the Indic culture, Civilization and Heritage. Vivekananda is the epitome of the ideal for the Indian youth, Very few have dared, much less taken up, to mould their lives in the enlightened world views of our sages, more so of Swami Vivekananda—in finding higher purposes of life, setting immediate and meaningful goals to achieve, to excel in the skills of stress management or in regulating their emotions and growing more mature or in resolving conflicts within oneself and around or the simplest and best -**to love Bharath and serve Bharath** - the India that is Bharath. In short the honest, positive dharmic leadership skills and talent, intrinsic to every Indian youth, for making a positive impact on the society are just missing. At the core of that noble effort is character development for every individual. Together as a collective - group or team, our youth needs nurturing positive leadership to take on the challenges at hand. Formal education, typically run-of-mill, emphasizing self-centered secular knowledge and skills development is far divorced from the realities of what Swami Vivekananda sought to inspire in Indian youth - to enable them to bring out the best in themselves for their own self development in order to do seva par-excellence to the society around - seeing Bhagavan Shiva in every Jeeva. **NWEY 2022** seeks to focus on exploring all manifestations of thyaga and seva with experiential learnings that enables Youth to informally and yet rigourously imbibe Indic wisdom through Vivekananda. The videos of the talks and the panel discussions of our earlier workshops ([NWEY18](#), [NWEY19](#), [NWEY20](#), and [NWEY21](#)) are available in our website as well as our YouTube/Facebook Channel ‘Vivekananda-Janoththana’.

We have eminent Dharmic Monastics, Professionals and enlightened field workers to share their experiences, insights and expertise on the broad theme of the workshop. Outcomes of this workshop include expert knowledge sharing on the techniques, insights, perspectives and experiences regarding what constitutes inspired learning of our Indic values as envisioned by Swami Vivekananda. The eminent speakers focus on novel techniques, approaches and best practices that they have perhaps used or have deeply come to know of, in course of their professional work in matters related to the curated topic assigned to them.

**Participation & Registration Details:** Participation is FREE. [We strongly urge all participants to register](#). Registering enables one to get access to the workshop diary, and to update it after viewing every talk. Those completing the workshop diary in full, obtain participation e-certificates as well as win book prizes. Registration can be done at <https://vivekananda-janoththana.org/nwey22.html> or in [NWEY 2022 Registration Form](#)
